July 19, 1988.
112 Ransom Rd.,
Falmouth, MA 02540.

Dr. Joshua Lederberg,
Rockefeller University.

Dear Josh,

It was very nice to have a chance to chat with you in Woods Hole, and to hear your lecture.

I particularly liked your remarks at the end about the genome project. This seems an appropriate topic for the occasional column that I write for Gen. Eng. News, and if you could send me a copy, with a reference if it is in press, I would like to quote it and add my own reinforcement.

With warm regards,

A handwritten signature in cursive script, appearing to read "Bernard D. Davis".

Bernard D. Davis.

Please send the pages to the above Falmouth address.

You might enjoy the enclosed letter to the NY Times, which they are still holding after nearly a month.
